

# WORKSHOP

## STUDENT RESPONSE SYSTEM Letsfeedback

**2/4/2014**

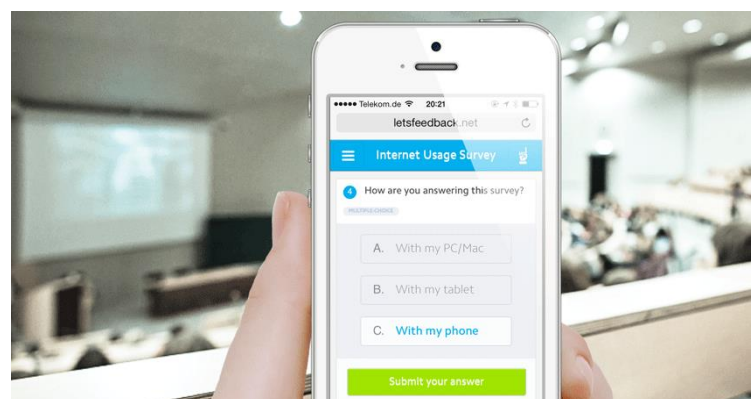

**13:00-14:30**

**Deniz Demirsoy, Letsfeedback**

- 13:00-13:30 Overview & Demo
- 13:30-14:00 References & Use cases
- 14:00-14:30 Discussion

Letsfeedback allows you to create multiple-choice, open ended and numeric entry questions easily with an intuitive and easy to use user interface with your tablet or computer browser. Include complex LaTeX formulas as well as images into your questions.

Students just use their smartphones and notebooks to answer anonymously and give instant feedback during the class. No clickers are needed, no apps need to be downloaded. Display poll results instantly during the class to your students.
